

MATTHEW DUBBRIN

Orlando, FL | mdubbrin@gmail.com | linkedin.com/in/matthew-dubbrin/ | mdubbrin.github.io

EDUCATION

University of Central Florida - Orlando, FL

Expected Graduation: May 2029

Bachelor of Science in Information Technology | Secure Computing and Networking Minor

GPA: 4.00

Relevant Coursework: Programming in C, Object Oriented Programming, Database Concepts, Technical Presentations, and Technical Writing

EXPERIENCE

Network Infrastructure Summer Intern

June 2024 - August 2024

School District of Palm Beach County – West Palm Beach, FL

- Repaired and replaced broken network infrastructure (wireless access points, VoIP devices, network switches, phone and fiber lines, etc.), configured network devices, installed new infrastructure, and managed inventory
- Collaborated with a team to maintain an operational network in the 10th-largest public school district in the nation
- Assisted in diagnosing and resolving network connectivity issues across multiple school sites

PROJECTS

IoT Security Research

Fall 2025 - Present

Independent – Orlando, FL

- Conduct ongoing vulnerability research on BLE/Wi-Fi IoT systems, including analysis, proof-of-concept exploitation, and responsible disclosure
- Identified and disclosed 4 high-severity CVEs in a consumer Wi-Fi ear-wax cleaning camera
 - CVE-2026-81330 – video feed transmitted over unencrypted UDP, allowing interception
 - CVE-2026-82563 – device authentication could be spoofed, enabling man-in-the-middle attacks
 - CVE-2026-81640 – device's Wi-Fi password could be derived, exposing its wireless network
 - CVE-2026-77974 – firmware updates accepted over an unauthenticated, unsigned channel
- Presented "Insecure by Design: Breaking a Consumer IoT Camera's Trust Model" at BSides Orlando 2026

ACTIVITIES

UCF Collegiate Cybersecurity Competition (C3) Team

Fall 2025 – Fall 2026

hack@UCF – Orlando, FL

- Participate in defensive competition scenarios simulating real-world incidents to harden enterprise networks
- Apply networking, firewall, IDS/IPS, and system-hardening techniques in team-based environments
 - Alternate for WCCDC Invitational (Fall 2025 and Spring 2026)
 - Competed in ISEAGE International Cyber Defense Competition (Spring 2026)
 - Competed in NCAE Cyber Games (Spring 2026) | Nominated as "Most Improved Teammate"
 - Competed in University at Buffalo Lockdown Defensive Security Competition, 3rd place (Spring 2026)

Member of hack@UCF

Fall 2025 - Present

hack@UCF – Orlando, FL

- Mentor assigned members one-on-one, guiding their technical skill development, project work, and cybersecurity career planning
- Gained hands-on experience with user management, network security, firewalls, and Linux basics through workshops, and competed in the Horse Plinko Cyber Challenge (Fall 2025)

CERTIFICATIONS

- Cisco Certified Support Technician - Cybersecurity - Cisco (November 2024)
- Network Security Certification - IT Specialist (November 2023)

TECHNICAL SKILLS

Languages & Systems: C, Java, SQL, Linux

Security & Networking: Networking, Firewalls, IoT Security, System Hardening, IDS/IPS

Tools: Wireshark, Nmap, pfSense, Snort
